SAMPLE RESUME:

Jane Doe is a X grade student at Our School. She has served on student council, volunteers on school beautification days and participates in many activities, one of her favorites being the school talent show. She works hard to maintain outstanding grades and currently has a 3.7 GPA. She enjoys learning and the challenges of school. She has not missed a day of school since second grade.

Jane plays soccer, does karate, is on a synchronized swim team, plays piano and is a girl scout. She volunteers as a “play date” with a special needs child weekly. She has many pets that she adores.

Jane wants to become a meteorologist and possible attend USC, Stanford or Loyola Marymount. She is interested in the study of marine biology, global warming and a cure for cancer.

Jane believes that anything is possible with hard work and determination.
